-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 16, 2007 has been entered.

### ***Response to Amendment***

The rejection of claims 1-52 under 35 U.S.C 103(a) as being unpatentable over PCT Patent Publication WO 97/35457 (Tungare) is moot in view of applicants' amendments.

### ***Claim Rejections - 35 USC § 103***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-4, 6-23, 27, 32-52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stengle, Jr. 4,316,930 (Stengle).

Stengle teaches a composite material comprising at least one glass fiber coated with a composition having particles dispersed therein, wherein the particles can be graphite and results in a product having no tackiness, as required by claims 1-4, 27 and 33 and 51. See abstract, column 5, lines 5-15 and column 7, lines 21. In addition, Stengle teaches that the particles are present in an amount within the instant claimed

Art Unit: 1774

ranges of claims 20-23 and 47-50, and that his coating comprises first particles and second particles that are different, per claim 32. Note column 5, lines 5-15. As to claims 6-19 and 34-40, these claims are drawn to the size and shape of the particles, or more specifically, the relative dimensions. It is the position of the examiner that where the only difference between the prior art and the claims was a recitation of relative dimensions of the claimed device and a device having the claimed relative dimensions would not perform differently than the prior art device, the claimed device was not patent distinct from the prior art device. As to claims 41-46, it is the examiner's position that the glass product of the prior art is substantially the same as that contemplated by applicants, accordingly, the examiner has reason to believe that the properties set forth in instant claims 41-46 are the same or similar. As to claim 52, it would have been obvious to the skilled artisan to use any of the known glasses commensurate with the desired properties of the end product. Hence, this requirement is not construed to be a matter of invention.

Therefore, the teachings of Stengle would have rendered obvious the invention as claimed in present claims 1-4, 6-23, 27, and 32-52.

4. Claims 28-31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jill M. Gray whose telephone number is 571-272-1524. The examiner can normally be reached on M-Th and alternate Fridays 10:30-7:00.
